

Number 3 · June 1990

339–343	Commentary: Intracrine regulation at the nucleus – a further mechanism of growth factor activity?	A. Logan
345–358	Review: Thyrotrophin-releasing hormone: a growth hormone-releasing factor	S. Harvey
359–364	Normoprolactinaemia in spontaneously hypertensive rats: absence of a close relationship between plasma concentrations of prolactin and systolic blood pressure	E. Aguilar, M. L. Rodríguez-Padilla & L. Pinilla
365–373	Secretion of ACTH by perfused isolated rat anterior pituitary cells: pulses of secretagogue enhance the secretory response and modify the effect of atriopeptin	F. A. Antoni & G. Dayanithi
375–379	Effects of gastric inhibitory polypeptide, vasoactive intestinal polypeptide and peptide histidine isoleucine on the secretion of hormones by isolated mouse pancreatic islets	C. J. Bailey, L. C. Wilkes, J. M. Conlon, P. H. Armstrong & K. D. Buchanan
381–386	Regulation of insulin-like growth factor-I gene expression by growth factors in cultured vascular smooth muscle cells	K. E. Bornfeldt, H. J. Arnqvist & G. Norstedt
387–396	Luteal steroidogenesis and regression in the rat: Effects of human chorionic gonadotrophin and phospholipase A ₂ on cells and plasma membranes	E. A. Greenhalgh
397–402	Luteal steroidogenesis and regression in the rat: Progesterone secretion and lipid peroxidation induced in luteal cells by human chorionic gonadotrophin, phospholipase A ₂ and prostaglandin F _{2α}	E. A. Greenhalgh
403–407	Growth hormone and thyroxine affect lipoprotein metabolism in hypothyroid and hypophysectomized rats	N. Hoogerbrugge-v.d. Linden, H. Jansen, N. M. H. Wouters & J. C. Birkenhäger
409–415	Feedback effects of growth hormone on anterior pituitary function in chickens	R. W. Lea & S. Harvey
417–424	Effects of passively immunizing ewes against inhibin and oestradiol during the follicular phase of the oestrous cycle	G. E. Mann, B. K. Campbell, A. S. McNeilly & D. T. Baird
425–432	Oxytocin has a role in gonadotrophin regulation in rats	G. Robinson & J. J. Evans
433–438	Serotonin enhances oestradiol production by hamster preovulatory follicles <i>in vitro</i> : effects of experimentally induced atresia	P. F. Terranova, J. Th. J. Uilenbroek, L. Saville, D. Horst & Y. Nakamura
439–448	Characterization of insulin-like growth factor-binding proteins secreted by isolated sheep thyroid epithelial cells	J.-F. Wang, G. P. Becks, K. D. Buckingham & D. J. Hill
449–456	Effect of angiotensins on electrogenic anion transport in monolayer cultures of rat epididymis	P. Y. D. Wong, W. O. Fu, S. J. Huang & W. K. Law
457–465	The role of angiotensin-covering enzyme in the rat epididymis	P. Y. D. Wong & C. N. Uchendu
467–475	Role of the paraventricular nucleus in controlling the frequency of milk ejection and the facilitatory effect of centrally administered oxytocin in the suckled rat	J. B. Wakerley, T. S. Juss, R. Farrington & C. D. Ingram
477–484	Human chorionic gonadotrophin-like and β-core-like materials in postmenopausal urine	A. H. Akar, G. Gervasi, C. Blacker, R. E. Wehmann, D. L. Blithe & B. C. Nisula

485–492	Localization and characterization of epidermal growth factor receptors on human testicular tissue by biochemical and immunohistochemical techniques	S. C. Stubbs, T. B. Hargreave & F. K. Habib
493–500	Purification of human pituitary LH and thyrotrophin by hydrophobic chromatography	J. Hiyama, A. Surus & A. G. C. Renwick
501–502	Forthcoming papers and Announcements	
503–510	Indexes to volume 125
